01 · WHO WE ARE

Hands-on experience. Turnkey delivery.

Meta Impact (Pty) Ltd is a South African construction and technical services company. We build and maintain sanitation facilities, internal roads and residential and commercial properties, and we install and support electrical, solar, instrumentation and IT systems.

Established in 2023, the company is led by Tumelo Diale, a director with more than ten years of hands-on experience across construction, electrical, instrumentation, solar and IT environments. We read the drawings, set out the site and manage each trade ourselves, so the client deals with one accountable contractor from first excavation to final handover.

OUR MISSION

To deliver safe, compliant and dependable construction and technical solutions, on time, to specification and built to last.

OUR VISION

To be the trusted turnkey partner for infrastructure, maintenance and energy projects, recognised for safety, workmanship and reliability.

HOW WE WORK

Zero Harm First

Safety engineered into every activity: risk assessments, permit-to-work and isolation procedures.

Right First Time

Disciplined execution and quality workmanship that minimise rework and downtime.

Compliance Without Compromise

Legislation, client standards and governance built into how the work is done.

Technical Precision

Installed, tested, verified and documented to specification.

Sustainable Impact

Long-term value through efficiency, preventive maintenance and less waste.

Integrity & Accountability

Transparent, ethical, and we own our outcomes.

A SNAPSHOT OF OUR WORK

School sanitation facility, KwaZulu-Natal

Internal roads and block paving, Wonderkop

Building maintenance and refurbishment

02 · WHAT WE DO

One contractor. Drawing to handover.

Four service lines, one management team. We self-perform the core trades and bring in specialist skills where a project needs them.

Construction & Civil Works

- General buildings and community infrastructure
- School and public sanitation facilities
- Internal roads: layerworks, kerbing and block paving
- Foundations, brickwork, plastering, painting and finishing
- Turnkey execution from setting out to handover

Maintenance & Refurbishment

- Residential, commercial and institutional buildings
- Painting, plastering and tiling
- Plumbing repairs and pipework replacement
- Electrical DB and small-power repairs
- Planned and term maintenance programmes

Electrical, Solar & Energy

- Electrical installations, fault finding and system upgrades
- Solar PV mounting structures and installation
- Energy optimisation
- Maintenance and repairs

Specialist Technical Services

- Instrumentation installation, calibration, testing and commissioning
- Control panel and system integration support
- IT infrastructure and technical support
- Architectural consultation and drawings

HOW WE DELIVER

01 Brief & site inspection	02 Design, costing & proposal	03 Mobilise & safety onboarding	04 Build, inspect & test	05 Handover & documentation

- Issues and incidents reported openly

QUALITY

- Work set out from approved drawings
- Inspection at each stage before the next trade starts
- Electrical and instrument work tested and verified
- Handover with completion documentation

05 · WHY META IMPACT

What you get when you appoint us.

Single-point accountability

One contractor from setting out to handover. Fewer interfaces, fewer delays, one team answerable for the result.

Trades under one roof

Brickwork, plastering, painting, plumbing, electrical and paving managed by one team on site.

Referenced delivery

Recommended by our main contractor for turnkey delivery of school sanitation facilities.

Safety by design

Risk assessments, permit-to-work and isolation procedures, and fall protection for work at height.

B-BBEE Level 1

Maximises the client's procurement scoring and supports local skills and employment.

Partner-ready

Comfortable as main contractor, subcontractor or joint-venture partner, proven with Themane Management Consulting and Theo Construction.

HOW TO ENGAGE US

Direct appointment

Tell us the scope and drawings. We provide a costed proposal and a clear programme.

Subcontract

We deliver defined packages, from sanitation blocks to roads and maintenance, under your main contract.

Joint venture

We combine capacity with established contractors to pursue larger projects, as with Theo Construction.

Our site teams at work: brickwork, plastering and finishing

06 · COMPLIANCE & CONTACT

Compliance and credentials.

REQUIREMENT	DETAIL	REFERENCE / EXPIRY
